PAPER

200 Fifth Avenue : : : New York

Phone, Gramercy 5330

CHICAGO DETROIT MILWAUKEE CINCINNATI ST. LOUIS

If you want competition we want your specifications.

If you must have service, give us your orders.

We are the sole agents for twelve paper mills who make over 1400 tons per day of M. F., S. & S. C., light weight Catalog Papers, Coated Papers, Coated Blanks, News Print Paper and Wrapping Papers.

The product of these mills cannot be secured except through us. Five of these mills make exclusively light weight Catalog and Bible Papers of a quality that cannot be duplicated in this country.

Ask us for figures on your requirements and we will help you to find the quality and weight of paper best adapted for your purposes.

No order is too large for us to handle promptly and no order too small to receive our most careful attention.

Let us show you printed samples of our paper now being used in many of the largest editions of catalogs, directories, etc., published in this country. We ask for nothing more than an opportunity to submit our proposition. A request, phone or mail, will bring a salesman to your desk with a real practical knowledge of paper and printing.

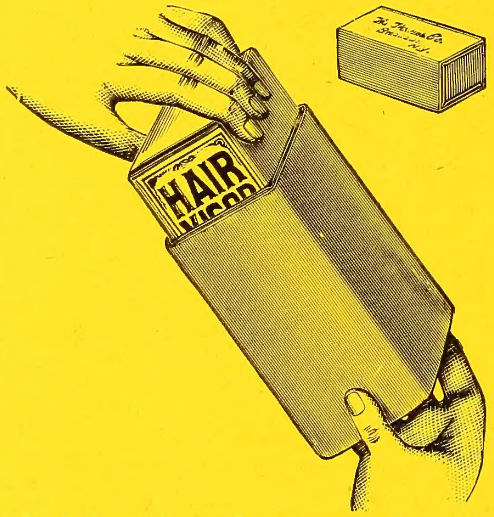
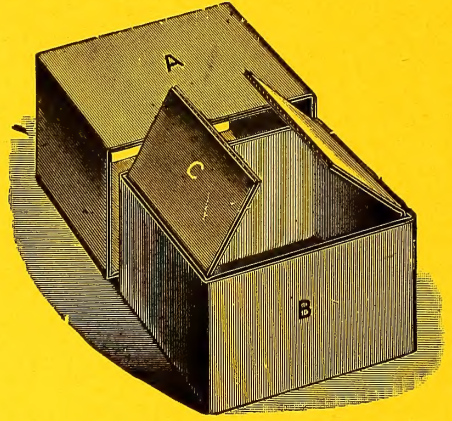
ILLUSTRATING A FEW OF OUR LINES

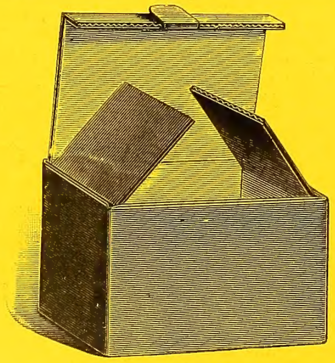


The D. C. Box—An excellent express carton. Affords splendid protection. Two thicknesses of paper at the sides, one thickness at the ends.



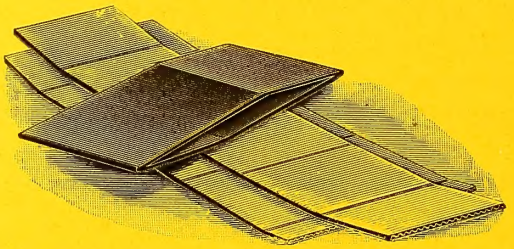
Patented May 14th, 1901

Style No. 75 Box—The general principle is the same as the D. C., but the shipper here obtains a double thickness of **"Cellular Board"** at all points. Recommended for large bottles, in preference to the D. C.

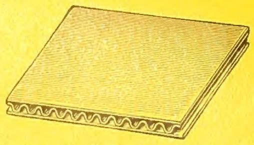


Patented May 14th, 1901

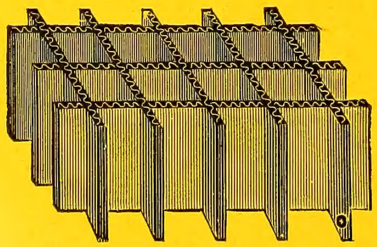
Style D. L. Box—Our patented D. L. is a splendid box for shipment of ½ doz., 1 doz., etc. by express. Gives double thickness at all points like the No. 75.



All the boxes illustrated are shipped flat. This illustration shows **Style D. L.** before it is put together.



This is our famous **"Cellular Board,"** the material of which these boxes are manufactured. It is far lighter than wood.



"Cellular Board" Partitions—A clean effective method of packing our express boxes.

If you feel uncertain as to the best method of shipping your goods by mail, freight or express, SEND US A SAMPLE JUST AS YOU SHIP IT, and we will solve your problem. In making inquiries, advise quantities.

PATENTS AND TRADE MARKS

THE wealth of nations depends on patents. Never before have the "arts of peace" offered more chance of a great material reward. **"Made in America"** means that the whole inventive genius of the American people must be concentrated on the production of new articles and the improvement of the old. If you have an invention which you wish to Patent or a Trade Mark which you wish to register, you can write fully and freely to Munn & Co. for advice in regard to the best way of obtaining protection. If you do not find it convenient to call at our office, you can send a sketch or a model of your invention and a description of the device explaining its operation, and you will receive a full reply giving you all of the facts in the case. Communications of this kind are strictly confidential. Our vast practice extending over 70 years, enables us in many cases to advise in regard to patent ability without any expense to the client. Our **Handbook on Patents** is free on request and fully describes our methods, terms, etc., as regards patents, trade marks, foreign patents, etc. It should be specially noted that all patents secured through us are described without cost to the patentee in the **Scientific American.**

We earnestly request all inventors to call at their convenience. It is not necessary to make an appointment in advance, as we have an ample corps of expert Patent Attorneys to care for your business.

Our office can be reached by all Broadway cars, which pass the door. The Subway station is at City Hall, the 6th Avenue elevated station at Park Place is one-half block away, and those that travel by way of the Third Avenue trains should go to the Brooklyn Bridge, which is only two minutes away from our office. The Hudson Terminal is within five minutes Walk. We should be glad to see prospective clients between the hours of 9 and 5 o'clock, and 9 and 1 o'clock on Saturdays.

Barrett Specification Roofs

Are Recognized as Standard

THE Barrett Specification prescribes the exact procedure for using pitch, tarred felt and gravel (or slag) so as to make the most economical and satisfactory roof known, and defines with precision the proper quantity and quality of materials to be used.

The procedure demanded is the one which gives the least chance for careless workmanship.

The Barrett Specification is practical and is used regularly by the best architects, engineers, roofers and builders.

It is recognized by them as standard.

A Barrett Specification Roof will usually last at least twenty years and rarely requires any care or attention during that period. The maintenance cost, therefore, is nothing. No other form of roofing is so economical.

A copy of The Barrett Specification in full, sent free on request. Every owner, builder, architect and engineer should have it.

Special Note

We advise incorporating in plans the full wording of The Barrett Specification, in order to avoid any misunderstanding.

If any abbreviated form is desired, however, the following is suggested.

ROOFING — Shall be a Barrett Specification Roof laid as directed in printed Specification, revised August 15, 1911, using the materials specified and subject to the inspection requirement.

Hydronon—A Damp-Proofing Paint, especially recommended for use above ground level on the interior of stone, brick or concrete walls, excluding dampness. Plaster may be applied directly on the Hydronon, as Hydronon has ample adhesive power, thus saving all the costs of furring or lathing, and expediting construction. Send for Hydronon booklet.

Tarvia—Tarvia preserves roads and prevents dust. Acts as a binder of macadam, prolongs its life, and decreases maintenance charges. Three grades: "Tarvia B", applied cold for dust suppression and road preservation; one application lasts a season. "Tarvia A", applied hot for thorough surface work. "Tarvia X", for road and pavement construction. Special booklets on request.

Tartex—Reinforced Waterproofing Felt of extra tensile strength for use in waterproofing foundations, tunnels, etc., where the waterproofing course will be subjected to unusual strain.

Everjet Elastic Paint—A dense, glossy black, waterproof paint for metal and woodwork; made in black only. Very low in price.

Barrett's Velvex Creosote Shingle Stains—Made in all the popular colors. Color samples on request.

Tar-Rok Sub-Floor Composition—A special tar preparation used in mixture with sand according to our Tar-Rok Sub-floor Specification, to provide a damp-proof, rot-proof sub-flooring underneath plank floors of factory basements. Cheaper, stronger and better than air-space construction. Special booklet on request.

Barrett's Grade One Liquid Creosote Oil—Is the most efficient wood preservative on the market today. It combines in the highest degree ability to penetrate deeply into the wood, antiseptic action toward fungus growth and insects, and resistance to the action of water and air. Its use will cut your wood preserving bills in half. Folder free on request.

Amazon Ready Roofing—This is a "rubber," or smooth-surface, ready roofing of the highest grade, made in half, one, two or three-ply, in rolls 36 inches wide, containing 216 square feet, weighing 60, 70, 80 and 110 pounds, respectively. Nails and cement packed in the center of each rool. This is largely used for temporary roofing, and is clean and easy to handle.

2- and 3-Ply Roofing—2- and 3-ply, "Black Diamond" and "Red Seal" are composed of two thicknesses or three thicknesses of Tarred Felt, cemented together with Pitch. It is used extensively for temporary roofing on buildings of all kinds, and especially for sheathing, where a warm, permanent, vermin-proof material is required.

Barrett Slater's Felt—This is a well-seasoned felt, and is made especially for sheathing under slate. Put up in rolls 36 inches wide, containing 500 square feet.

Barrett Deadening Felt—A sound deadener for use in walls and floors. Made in three weights: 4½, 6 and 9 square feet to the pound. Put up in rolls 36 inches wide, containing 450 square feet.

CAUTION!

Pay no money in advance to itinerant Directory Canvassers. We are led to mention this from the fact that certain parties have been fraudulently using our publications as specimens and by that means collecting moneys in advance. Before signing an order, see that it has the name of R. L. Polk & Co. (Inc.) printed thereon. We ask no payment until the work is delivered, and our solicitors have strict orders not to take payment for either advertisements or subscriptions.

STERLING

SILVERWARE BUYING is not to be classified as ordinary shopping. It is really making a permanent investment. Nine-tenths of all other merchandise you buy wears out quickly, depreciating rapidly by use.

STERLING SILVERWARE, on the contrary, has an intrinsic value, uniform everywhere, and unaffected by length of use.

Moreover, it is an investment from which you draw daily dividends of useful service and delight of ownership.

It's just as valuable intrinsically, and much more so sentimentally, after twenty years' use as the day you buy it. To this intrinsic value GORHAM adds the exquisite artistry of perfect workmanship and handicraft.

Any piece of Gorham Silverware is a potential heirloom which a future generation would highly prize.

COPYRIGHT 1915

STERLING On every piece of Gorham Silverware this identifying trade-mark appears. Offered everywhere by leading jewelers.

The Sign over your door

IT is a good thing, isn't it? You would not think of doing business without it.

But it is only seen by those who pass your way.

The **City Directory** is where many people look when they want to find you. You should make it easy for them to find you by putting in the directory such information as a buyer wants to know. Index your business under all classifications where a customer might look for you.

To be properly registered costs less than to be left out.

Send for the City Directory Advertising Man and let him explain this to you in detail.

On the Spur of the Moment We'll Do Your Addressing & Mailing

When you are at your wit's end as to how you can have your circularizing done in the shortest possible time, we are at your service.

In this age of specialization, you can save work, time and money, by using the services of our trained corps of Addressers and Mailers, who, on twenty-four hours' notice, can prepare and forward thousands of pieces of mail.

Publishing about 450 Directories of leading cities, counties and towns in the United States, we have exceptional facilities for compiling Mailing Lists, and are frequently able to prepare lists direct from the manuscript copy that we intend utilizing in directories being compiled. Thus, in such instances, you get advance information.

When in need of reliable and expeditious addressing and mailing service, you'll do well to come to
